CHAPTER 10

The "Network Editor" Contribution

Kai Nagel

10.1 Basic Information

Entry point to documentation:

`http://matsim.org/extensions` → networkEditor

Invoking the module:

`http://matsim.org/javadoc` → networkEditor → `RunNetworkEditor` class

Selected publications:

none

10.2 Short Description

This is, beyond the two network editors described in Chapters 8 and 9, a third network editor. It is older than the other two and has not been systematically maintained, but it still seems to be working and so it is still there.
